"QuEST has been organizing many CSR programs for the school embraced by us. With this newly launched E-Learning Center, we hope to foster interest and curiosity among young minds around the fascinating world of technology and science. This would help to widen their horizon by giving them accessibility to a wider knowledge pool available through this medium." - *Ajay Prabhu, COO, QuEST Global*

IndiaCSR News Network

BANGALORE: QuEST Global and one of its key customers jointly launched the E-Learning Center today in A. Narayanapura Govt Model Primary School, located near the Krishnarajapuram Railway Station, Bangalore. In an endeavour to engineer positive change through education, QuEST has been supporting the school and its students through its various CSR programs. Employees have volunteered to bring about that change and these initiatives have been ardently supported by many of QuEST's customers.

The E-Learning Center was inaugurated by QuEST Global's leadership team. The Center includes computers, a projector, a printer and internet connectivity, which are intended to complement the students' academic syllabus. The event was executed by the NGO, Engineers Without Borders – India that supports community-driven development programs worldwide by collaborating with local corporates to design and implement sustainable engineering projects.

On the occasion, Ajay Prabhu, COO, QuEST Global said, "QuEST has been organizing many CSR programs for the school embraced by us. With this newly launched E-Learning Center, we hope to foster interest and curiosity among young minds around the fascinating world of technology and science. This would help to widen their horizon by giving them accessibility to a wider knowledge pool available through this medium."

In November last year and the year before, QuEST Global along with Airbus had ramped up basic infrastructure in the same school.

QuEST Global – Engineering Positive Change through Education

CSR at QuEST is focussed on educating and supporting underprivileged children. The company believes in creating sustainable jobs and believes each time a job is created, it not only impacts an individual and their family, but also the community at large. By educating underprivileged children and creating an environment to nurture local talent, QuEST believes it is laying a strong foundation for a better tomorrow for the entire community.

QuEST currently supports three schools at various levels:

Government Model Primary School – A Narayanapura, Bangalore, India

Government Junior Technical School – Hubli

ZPH School – Gowdavalli, Hyderabad

QuEST Global is a focused global engineering solutions provider with a proven track record of over 17 years serving the product development & production engineering needs of high technology companies. A pioneer in global engineering services, QuEST is a trusted, strategic and long term partner for many Fortune 500 companies in the Aero Engines, Aerospace & Defence, Transportation, Oil & Gas, Power, Healthcare and other high tech industries. The company offers mechanical, electrical, electronics, embedded, engineering software, engineering analytics, manufacturing engineering and supply chain transformative solutions across the complete engineering lifecycle.

QuEST partners with customers to continuously create value through customer-centric culture, continuous improvement mind-set, as well as domain specific engineering capability. Through its local-global model, QuEST provides maximum value engineering interactions locally, along with high quality deliveries at optimal cost from global locations. The company comprises of more than 7,000 passionate engineers of nine different nationalities intent on making a positive impact to the business of world class customers, transforming the way they do engineering.
